

## Datasheet of 7771 10 10 Flow regulator

6 8 10 12

Anzahl der Drehungen der Einstellschraube

## Description

Polymer flow regulators, regulator in-line, uni-directional, -

Non-return throttle valve, threaded, made of plastic, for line installation: - with female thread, G-thread, uni-directional

- prevention against unwanted adjustment with a lock nut
- small and lightweight for easy installation

- versatile

## Details

| C:                               | G1/8"               |
|----------------------------------|---------------------|
| F:                               | 13                  |
| F1:                              | 8                   |
| H min:                           | 39,5                |
| H max:                           | 44,5                |
| L:                               | 68,5                |
| L1:                              | 23                  |
| N:                               | 17                  |
| N1:                              | 11                  |
| Τ:                               | 3,2                 |
| Maximum working pressure in bar: | 10                  |
| Material seal:                   | NBR                 |
| Material adjusting spindle:      | Brass nickel plated |
| Material body:                   | Engineered polymer  |
| Material threaded fitting:       | Brass nickel plated |
| Material locknut:                | Brass nickel plated |
| max. temperature in °C:          | 70                  |
| RoHS compliant:                  | Yes                 |
| Weight in kg:                    | 0,043               |
