

## Datasheet of ESR 84-6000 AX25 WS Air grinding spindle

### Description

6.000 min<sup>-1</sup>, 840 Watt, axial compliance with quick change

- Use of non-lubricated air motors for low wear and long life time

All data related to 6.3 bar working pressure.

### Details

|                                                       |                    |
|-------------------------------------------------------|--------------------|
| Idling speed rpm:                                     | 6000               |
| Air supply:                                           | lubricated         |
| Power in kW:                                          | 840                |
| Radial deflection:                                    | -                  |
| Axial compliance in mm:                               | 25                 |
| Direction of rotation:                                | Rotating clockwise |
| Exhaust Air:                                          | to front           |
| ER collet in mm:                                      | 6                  |
| Compliance force range in N:                          | 25 - 1000          |
| Noise level in dB(A):                                 | 88                 |
| Air consumption in l/s:                               | 18,5               |
| Accessories supplied:                                 | Wrench             |
| Anschluss Zuluftschlauch (Blitz) ø mm, innen \ außen: | 14 \ 12            |
| Item number:                                          | 60051295           |
| Weight in kg:                                         | 6,9                |
