

Datasheet of WL 54 I WaterProfi-coupling G 1 1/4" IG Quick coupling

Description

WaterProfi-quick coupling with shut-off valve and female thread G 1 1/4", brass nickel plated, DN 16

WaterProfi quick couplings series WL are completely made of brass MS 58 which offers a more robust and wear resistance vs other couplings made of plastics. The one-hand operation guarantees a simplified work and an optimum ease of use. WaterProfi products are outfitted with O-rings to offer best sealing characteristics. That means: leakages can be avoided with the coupling system as often seen with pre-mounted compression fittings now in the past.

The **series WL** with extra large through-hole is ideal for water supply in industry, craft, agriculture and horticulture.
