

Datasheet of WPN 16 GT WaterProfi-screwing hose stem

Description

WaterProfi-screwing hose stem G3/4" AG, for hose 5/8" (16 mm), brass nickel plated, DN 9

WaterProfi quick couplings are completely made of brass MS 58 which offers a more robust and wear resistance vs other couplings made of plastics. The one-hand operation guarantees a simplified work and an optimum ease of use. WaterProfi products are outfitted with O-rings to offer best sealing characteristics. That means: leakages can be avoided with the coupling system as often seen with pre-mounted compression fittings now in the past.
