

Datasheet of 26SFAW17MXN6 Plug color coded

Description

Plug straight-through, coded system (6 = blue, hexagon), male thread G 3/8, nominal diameter 7,2, <35 bar, brass nickel plated

Coded industrial coupling system developed on the basis of series 25. Coupling system with single-hand operation. UltraFlo valve for optimum flow and low pressure drop. The mechanical coding of the coupling and plug offers a guarantee for avoiding mix-ups between media when coupling, which is complemented by the color coding of the anodised sleeves. Double shut-off and straightthrough couplings are available upon request. Cannot be interconnected with the Rectus standard 25 series.
