

## Datasheet of 25KSAK21BPX Quick coupling with male thread

### Description

Quick coupling safety single shut-off, male thread R 1/2, nominal diameter 7,8, <35 bar, brass, seal NBR

Safety coupling with UltraFlo-Valve for optimum flow and low pressure drop. The series stands out for its robust design (steel sleeve) and long service life even with the harshest use. Additional safety locking system. This safety lock prevents unintentional disconnection. To disconnect, the plug must first be pushed further into the coupling before it can be unlocked. The brass version has been developed specifically for use with water in the pressure range up to 35 bar.
