

## Datasheet of NC-MEI-490 Isolated bit holder

### Description

Isolated bit holder, Hex 1/4", Output Hex 1/4"

Apex offers high-voltage insulated adapters and quick-change adapters, both of which can be used with all free-spinning U-Guard products. This adaptable system ensures flexibility due to countless possible combinations. The adapters make special insulated socket wrenches unnecessary. The safety of your team comes first.

The insulated adapters and bit holders offer protection when screwing up to 1000 volts. This increases safety, especially when working on electromobility.

Together with extensions, u-Guard products and bits, the insulated adapters and bit holders offer numerous combination options.

### Details

Output:	1/4" hex
Length in mm:	75,1
Additional information:	Certified up to 1000V
Protective sleeve:	free-spinning
Drive:	1/4" Internal hex
Weight in kg:	0,15

### Dimensions

Length in mm:	75,1
Diameter in mm:	22,8
