

Datasheet of 21KATF08MVX6 Quick coupling with hose barb

Description

Quick coupling single shut-off, coded system (6 = blue, hexagon), hose barb 8mm (5/16), nominal diameter 5, <35 bar, brass, seal FKM

Coded industrial coupling system developed on the basis of series 21 with above-average flow rate for liquid and gaseous media. Coupling system with single-hand operation. The mechanical coding of the coupling and plug offers a guarantee for avoiding mix-ups between media when coupling, which is complemented by the color coding of the anodised sleeves. Double shut-off version available on request.
