

## Datasheet of 209KLIW26MPN Quick coupling with female thread

### Description

Quick coupling dry-break double shut-off, female thread G 3/4, nominal diameter 9, <15 bar, brass nickel plated, seal NBR

Leak-free coupling system for applications in sensitive environments, for example in analysis technology, in cooling systems, in transport systems and many applications with aggressive media. Coupling system with single-hand operation, extremely low leakage rates and minimal dead space volume. Absolutely no air pockets when coupling and only a barely noticeable film of the medium being channelled on the valve bodies when uncoupling. Ergonomic sleeve design. Low coupling forces. Valve body protected by collar design.
