

## Datasheet of 11KFAM16MVXSL Quick coupling with male thread USTRIE

## Description

Quick coupling straight-through with SAFE-LOCK™, male thread M 16 x 1,5, nominal diameter 9, <15 bar, brass, seal FKM

The 10, 11 and 12 Rectus Moldtite coupling series were especially developed for connecting coolant lines and injection moulds. These stand out for their convenient, singlehanded operation and a reliable O-ring seal. Widely used in Europe.

## **Details**

| Series:                                   | 11   |
|---|--|
| Series long:                              | 11KF   |
| Bore in mm:                               | 9  |
| Bore area in mm <sup>2</sup> :            | 63   |
| Advantages:                               | Available in single shut-off, double shut-off or straighthrough versions also available with SAFE-LOCK™-technology. The straight-through couplingsare equipped with nickel plated sleeves for quick and accurate visual differentiation. The angular connections prevent kinks from forming in the hose. |
| Working pressure:                         | PB = 15 bar maximum static working pressure with safety factor 4 to 1.   |
| Working temperature:                      | -15°C up to +200°C (FKM) depending on the medium   |
| Shut-Off:                                 | Quick coupling Straight-Through  |
| Connection:                               | Male thread M 16 x 1,5   |
| Connection description:                   | Male thread M 16 x 1,5   |
| Connection type:                          | Male thread  |
| Material:                                 | Brass  |
| Material description:                     | Brass CuZn39Pb3 2.0401 (except sleeve)   |
| Seal description:                         | Fluororubber   |
| Surface:                                  | blank finish   |
| Material connection:                      | Brass  |
| Material valve body:                      | Brass  |
| Material sleeve:                          | Brass  |
| Material spring snap ring:                | stainless steel AISI 301   |
| Material balls/pins:                      | Stainless steel AISI 420   |
| Material seal:                            | Viton®   |
| Weight in kg:                             | 0,001  |
| Self-venting coupling:                    | No   |
| Safety locking system:                    | No   |
| Single-hand operation:                    | Yes  |
| Two-hand operation:                       | No   |
| Ball locking:                             | Yes  |
| Pin lock:                                 | No   |
| Ultra-FLO-valve:                          | No   |
| Vacuum suitable:                          | Yes  |
| Water-resistant:                          | Yes  |
| Flat-sealing:                             | No   |
| Suitable breath / respiratory protection: | No   |
| Pressure eliminator:                      | No   |
| Hydraulics:                               | No   |
| Pneumatics:                               | No   |
| Standard product:                         | No   |
| Mould coupling:                           | Yes  |

## Dimensions

| Connection A: | M 16 x 1,5 |
|---------------|------------|
| D mm:         | 24         |
| L mm:         | 62         |
| L1 mm:        | 9          |
| SW mm:        | 22         |
