

## Datasheet of 28KSIW21SPN Quick coupling with female thread

### Description

Quick coupling safety single shut-off, female thread G 1/2, nominal diameter 10,5, <35 bar, steel nickel plated, seal NBR

The robust safety coupling is the largest version of the coupling series with safety locking. Coupling system with single-hand operation. UltraFlo valve for optimum flow and low pressure drop. Additional safety locking system. This safety lock prevents unintentional disconnection. To disconnect, the plug must first be pushed further into the coupling before it can be unlocked. Double profiled plug design against wear of material during operation.
