

## Datasheet of AT12

### Description

Venturi nozzle, M 12 x 1,25

Venturi nozzle, M 12 x 1,25

### Details

Additional information:	Energy saving as 2/3 of environmental air is aspirated due to the Venturi principle. Wide blow-out effect due to high nozzle performance. When the center bore is held locked, air escapes through the lateral holes.
Weight in kg:	0,0119
