Datasheet of 25KAKO10BPN8 Quick coupling with male thread D U S TRIE

## Description

Quick coupling single shut-off, coded system ( $8=$ red, octagonal), with hose nut $8 \times 10 \mathrm{~mm}$, nominal diameter $7,8,<35$ bar, brass nickel plated, seal NBR

Coded industrial coupling system developed on the basis of series 25 . Coupling system with single-hand operation. UltraFlo valve for optimum flow and low pressure drop. The mechanical coding of the coupling and plug offers a guarantee for avoiding mix-ups between media when coupling, which is complemented by the color coding of the anodised sleeves. Double shut-off and straightthrough couplings are available upon request. Cannot be interconnected with the Rectus standard 25 series.
