### Description

Fluoropolymer tubing (PFA), anti-static, outer diameter 12 mm, inner diameter 9 mm, black, length 10 m

Antistatic grade PFA for our black tubing (resistivity =  $0.25 \text{ W} \cdot \text{m}$ ) to prevent all electrostatic discharges in most aggressive environments in order to guarantee a very high security level.

Our range of PFA tubing covers a broad range of working temperatures, from cryogenic to extremely hot (+260°C) and of pressures (up to 35 bar).
