

## Datasheet of 1050T12P00 Fluoropolymer hose (PFA)

### Description

Fluoropolymer tubing (PFA), outer diameter 12 mm, inner diameter 9 mm, transparent, length 50 m

Our range of PFA tubing covers a broad range of working temperatures, from cryogenic to extremely hot (+260°C) and of pressures (up to 35 bar) and combines transparency with the lowest gas and fluid permeability.

This tubing improves system security and prevents the risks of fluid and gas leaks while facilitating visual inspection of contaminants or flow disruption.

**The diameters 10 and 12 mm in coloured versions are available upon request only.**

### Details

|                         |             |
|-------------------------|-------------|
| Colour:                 | transparent |
| Bend radius:            | 120         |
| Outer diameter:         | 12 mm       |
| Inner diameter:         | 9 mm        |
| Hose length:            | 50 m        |
| min. temperature in °C: | -196        |
| max. temperature in °C: | 260         |
| RoHS compliant:         | Yes         |
| Weight in kg:           | 5,692       |

### Dimensions

|                 |        |
|-----------------|--------|
| Bend radius:    | 120    |
| Outer diameter: | 12 mm  |
| Inner diameter: | 9,0 mm |
| Inner diameter: | 9 mm   |
