

PG10/025 PU-hose

PU-hose translucent blue, SUPERBRAID, 6,3 x 9,5 mm, length 25 m

Product description

Superbraid polyurethane recoil hose is extruded with an inner braid for additional strength. This „integral piece“ process eliminates the need of bonding individual layers of hoses, braiding and cover which tend to separate overtime due to bending, flexing and pulsating. Superbraid combines the durability of bulkier hoses with the kink resistance and elasticity of polyurethane to make a tough, long lasting hose that is user friendly. Superbraid can be used with either our barb and sleeve fittings or reusable polyurethane fittings.

Product properties

Outer diameter in mm	9,5
Working pressure	see chart
Weight in kg	1,2159
Hardness	85 Shore A
Material	Polyurethane (PU)
Series	SUPERBRAID
Working temperature	-40°C up to +75°C

Dimensions

Connection 1	without
Connection 2	without
Colour	lightblue-clear
Inner diameter	6,3 mm
Length in m	25
Hose Inner diameter in mm	6,3
Wall thickness in mm	1,6
