

Spring balancer 77001401

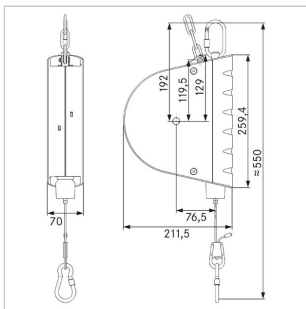

Spring balancer, payload range 2 - 5 kg, cable length 3 m, infinitely variable load setting

Product description

Spring balancers for continuous operation with smooth withdrawal. The 3,0 meters cable length is well suitable for the rough requirements in daily use. The hanging is done through a freely turnable and traversable screwing carabiner. The casing is made of shockproof and abrasion-resistant plastic, red-orange. The blockable cable drum is made of abrasion-resistant plastic. Infinitely variable load setting through adjusting screw with over-twist protection. Load mounting with screwing carabiner. The cable stop buffer is shockproof and adjustable. The cable length is infinitely variable adjustable through a cable lock. High-strength and bandaged special mainspring. Longer cables available on demand.

Product properties

Fall protection	Existing, according to DIN 15112
Locking	No
Suspension	Freely turnable and traversable screwing carabiner
Spring fracture protection	Yes
Weight in kg	3,3
Material casing	Shockproof special plastic
Cable stop	Yes, shock absorbing and adjustable
Series	7221
Series long	7221
Load attachment	Screwing carabiner
Payload range in kg	2 - 5
Load setting	Through adjusting screw with over-twist protection

Dimensions

Cable length in m	3
