

Balancer 77000614

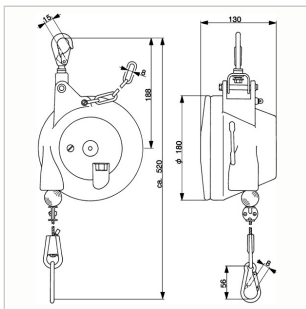

Balancer, payload range of 6 to 10 kg, cable length 2 m, infinitely variable load setting through adjusting screw, automatic locking

Product description

Suitable for lightweight and medium payloads. For rough applications in daily use. The casing is made of extremely shockproof plastic, red-orange. The hanging is done through a freely turnable and traversable security hook. High-strength steel cable with elastic cable stop buffer and carabiner for hanging the load. The cable length is infinitely variable adjustable through a cable lock and the working stroke can be infinitely variable shortened with a cable clamp. The riveted special mainspring allows infinitely variable load setting through an adjusting screw. The automatic locking makes it possible to block the device. Longer cables available on demand.

Product properties

Fall protection	Existing, according to DIN 15112
Locking	Yes
Suspension	Freely turnable and traversable screwing carabiner
Spring fracture protection	Yes
Weight in kg	3,4
Material casing	Shockproof special plastic
Cable stop	Yes, shock absorbing and adjustable
Series	7231
Series long	7231
Load attachment	Screwing carabiner
Payload range in kg	6 - 10
Load setting	Through adjusting screw
Additional information	Do not use the locking for changing the load!

Dimensions

Cable length in m	2
