

Balancer 77000671

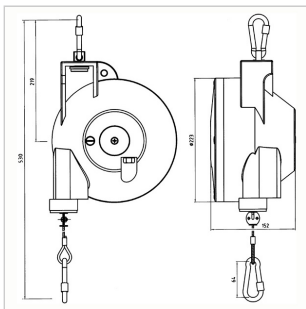

Balancer, payload range of 15 to 25 kg, cable length 2 m, infinitely variable load setting through adjusting screw

Product description

Suitable for rough applications of medium payloads. For heavy payloads. For positioning of multi-purpose screwdrivers or hand riveters. The hanging is done through a freely turnable and traversable screwing carabiner. The casing and the ball bearing mounted cable drum are made of aluminium sand casting. High-strength steel cable with elastic cable stop buffer and carabiner for hanging the load. The working stroke can be infinitely variable shortened with a cable clamp. The full encapsulated special mainspring makes infinitely variable payload adjustment possible due to an adjustment screw. The cable drum is blockable with the integrated automatic locking. Longer cables available on demand.

Product properties

Fall protection	Existing, according to DIN 15112
Locking	No
Suspension	Freely turnable and traversable screwing carabiner
Spring fracture protection	Yes
Weight in kg	7,8
Material casing	Aluminium sand casting
Cable stop	Yes, shock absorbing and adjustable
Series	7235
Series long	7235
Load attachment	Screwing carabiner
Payload range in kg	15 - 25
Load setting	Through adjusting screw

Dimensions

Cable length in m	2
