

1010T06P13 Fluoropolymer hose (PFA)

Fluoropolymer tubing (PFA), outer diameter 6 mm, inner diameter 4 mm, crystal red, length 10 m

Product description

Our range of PFA tubing covers a broad range of working temperatures, from cryogenic to extremely hot (+260°C) and of pressures (up to 35 bar) and combines transparency with the lowest gas and fluid permeability. This tubing improves system security and prevents the risks of fluid and gas leaks while facilitating visual inspection of contaminants or flow disruption.

The diameters 10 and 12 mm in coloured versions are available upon request only.

Product properties

Weight in kg	0,372
max. temperature in °C	260
min. temperature in °C	-196
RoHS compliant	Yes
Hose length	10 m

Dimensions

Outer diameter	6 mm
Bend radius	34
Colour	Crystal-Red
Inner diameter	4 mm
Inner diameter	4,0 mm
