

## 1010T06P14 Fluoropolymer hose (PFA)

Fluoropolymer tubing (PFA), outer diameter 6 mm, inner diameter 4 mm, crystal blue, length 10 m

### Product description

Our range of PFA tubing covers a broad range of working temperatures, from cryogenic to extremely hot (+260°C) and of pressures (up to 35 bar) and combines transparency with the lowest gas and fluid permeability. This tubing improves system security and prevents the risks of fluid and gas leaks while facilitating visual inspection of contaminants or flow disruption.

The diameters 10 and 12 mm in coloured versions are available upon request only.

**Product properties**

|                        |       |
|------------------------|-------|
| Weight in kg           | 0,432 |
| max. temperature in °C | 260   |
| min. temperature in °C | -196  |
| RoHS compliant         | Yes   |
| Hose length            | 10 m  |

**Dimensions**

|                |              |
|----------------|--------------|
| Outer diameter | 6 mm         |
| Bend radius    | 34           |
| Colour         | Crystal-Blue |
| Inner diameter | 4 mm         |
| Inner diameter | 4,0 mm       |
