

1010T08A01 Fluoropolymer hose (PFA)

Fluoropolymer tubing (PFA), anti-static, outer diameter 8 mm, inner diameter 6 mm, black, length 10 m

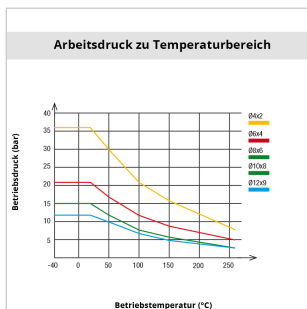

Product description

Antistatic grade PFA for our black tubing (resistivity = 0.25 W .m) to prevent all electrostatic discharges in most aggressive environments in order to guarantee a very high security level.

Our range of PFA tubing covers a broad range of working temperatures, from cryogenic to extremely hot (+260°C) and of pressures (up to 35 bar).

The diameters 10 and 12 mm in 50 and 100 m are available upon request only.
