

## 4812 10 17 Ball valve

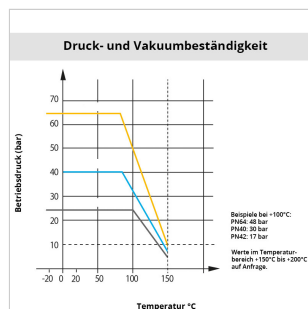

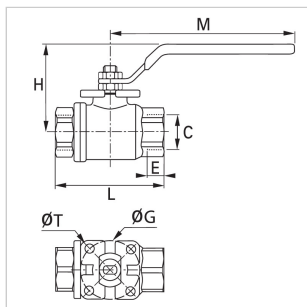

Ball valves Stainless steel, 2/2-way ball valve with fixing plate, Stainless steel 316L, NW 10, G3/8

### Product description

Connection of pneumatic or electric actuators due to the special sub-base. Excellent chemical resistance to aggressive fluids and environments. Good pressure resistance.

## Product properties

|                            |                      |
|----------------------------|----------------------|
| Weight in kg               | 0,254                |
| max. temperature in °C     | 150                  |
| min. temperature in °C     | -20                  |
| Bore in mm                 | 10                   |
| Nominal pressure in bar    | 140                  |
| RoHS compliant             | Yes                  |
| Material seal              | PTFE                 |
| Material adjusting spindle | Stainless steel      |
| Material body              | Stainless steel 316l |
| Material lever             | Stainless steel      |
| Material stem              | Stainless steel 316l |
| Material toothed washer    | Stainless steel      |
