

## 0631 00 23 Blowgun

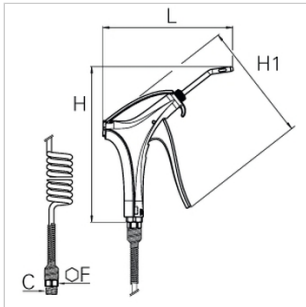

Blowguns, Energy saving-blowgun kit with angled tube, R1/4

### Product description

Combines progressive flow control, safety, energy saving and ergonomomy. Conforms with regulations of cleaning operations. Its integrated inviolable flow reducer provides full and active safety. The flow reducer system allows for 40% saving in air consumption and guarantees stable flow max 120NI/min. Can be adapted to all available interchangeable nozzles.

Product properties

|                                 |                     |
|---------------------------------|---------------------|
| Colour                          | Green               |
| Weight in kg                    | 0,456               |
| Material                        | PU                  |
| Maximum working pressure in bar | 10                  |
| max. temperature in °C          | 50                  |
| min. temperature in °C          | -15                 |
| RoHS compliant                  | Yes                 |
| Hose length                     | 4 m                 |
| Material seal                   | NBR                 |
| Material nozzle                 | Brass nickel plated |
| Material body                   | Engineered polymer  |
| Material threaded fitting       | Brass nickel plated |
| Material lever                  | Engineered polymer  |

Dimensions

|                           |        |
|---------------------------|--------|
| Outer diameter            | 6 mm   |
| Total closed length in m  | 850    |
| C                         | R1/4"  |
| F                         | 16     |
| H                         | 195    |
| H1                        | 148,5  |
| Inner diameter            | 4 mm   |
| Inner diameter            | 4,0 mm |
| L                         | 163    |
| Outer coil diameter in mm | 32     |
