**Product properties**

|                                 |                      |
|---------------------------------|----------------------|
| Flow rate in l/min              | 18,88                |
| Weight in kg                    | 0,1                  |
| Maximum working pressure in bar | 40                   |
| max. temperature in °C          | 180                  |
| min. temperature in °C          | -20                  |
| Bore in mm                      | 10                   |
| RoHS compliant                  | Yes                  |
| Material seal                   | FKM                  |
| Material spring                 | Stainless steel 302  |
| Material body                   | Stainless steel 316l |

**Dimensions**
