

7926 05 06 Function coupling

Function couplings, body with push-in connection, NW 5, 6 mm

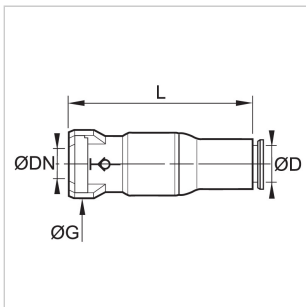

Product description

function coupling, body with LF3000-connection:

- designed to isolate a circuit without venting the whole installation
- can be released and connected without safety issues
- Connection confirmed by an audible click
- light weight and compact

Product properties

Weight in kg	0,02
Maximum working pressure in bar	10
max. temperature in °C	70
min. temperature in °C	-20
Bore in mm	5
RoHS compliant	Yes
Material seal	NBR
Material body	Engineered polymer
Material threaded fitting	Brass nickel plated
Material gripping ring	Engineered polymer
Material toothed washer	Stainless steel

Dimensions

G	18,5
L	44
ØD	6 mm
