

WLWSA WaterProfi-plug-adaptor

WaterProfi-plug-adaptor (series WL to series WS), brass nickel plated, DN 9/16

Product description

WaterProfi plugs series WL are completely made of brass MS 58 which offers a more robust and wear resistance vs other couplings made of plastics. The one-hand operation guarantees a simplified work and an optimum ease of use. WaterProfi products are outfitted with O-rings to offer best sealing characteristics. That means: leakages can be avoided with the coupling system as often seen with pre-mounted compression fittings now in the past.

The **series WL** with extra large through-hole is ideal for water supply in industry, craft, agriculture and horticulture.

Product properties

Shut-off	Plug Straight-Through
Seal	EPDM
Weight in kg	0,091
Material	Brass nickel plated
Maximum working pressure in bar	PN 16 bar
max. temperature in °C	+95°C
Bore	DN 9/16
Professional recommendation	Water
Series	WL
Series long	WL

Dimensions

B mm	32
L mm	57
