

MUD 9-165 F55 Air motor

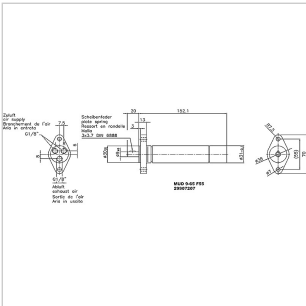

Air motor, reversible, free speed 220 rpm, max. torque 10 Nm, air consumption 4,9 l/s

Product description

The robustness distinguishes the air motor as unproblematic drive engine. It is well utilised in industrial sectors where accuracy and longevity are required. Its high starting torque and the wide torque range qualifies it for many needs in the drive section. **Reversible motors** can be used rotating clockwise and anti clockwise. It is very important that if the air motor is pressurized with connection turning the air motor left, the connection turning the air motor right is vented properly (and vice versa). All data related to 6.3 bar working pressure.

Product properties

Resistant to stalling	No
Item number	29907207
ATEX available	Yes
Brake	No
Torque in Nm	10
Maximum torque in Nm	10
Direction of rotation	Reversible
Weight in kg	0,73
Torque in Nm	-
Speed under load in rpm	-
Idling speed rpm	220
Power in kW	-
Air consumption in l/s	4,9
Material	Stainless steel
Non-lubricated	No
Start torque in Nm	-
Shaft load Fa max. in N	600
Shaft load Fr max. in N	700

Dimensions

Hose Inner diameter in mm	6
