

7812 - Bi-directional flow regulators made of stainless steel

Metal regulators, Bi-directional flow regulators made of stainless steel

Product description

throttle valve, threaded, made of stainless steel, bi-directional:

- with female thread, G-thread and metric
- recessed screw
- Throttling of air supply and exhaust, no non-return function.
- reliable and progressive adjustment with a screwdriver guaranteeing stability of adjustment
- strong construction for improved longevity
- ideally suited for aggressive atmospheres or environments submitted to significant chemical or mechanical constraints

Product properties

Material	Stainless steel 316l
max. temperature in °C	70
RoHS compliant	Yes
Material seal	FKM
Material adjusting spindle	Stainless steel 316l
Material body	Stainless steel 316l
