

7822 - regulators in-line made of stainless steel, bi-directional

Metal regulators, regulators in-line made of stainless steel, bi-directional

Product description

throttle valve, threaded, made of stainless steel, bi-directional:

- for line installation
- Large adjustment screw and lock nut guaranteeing stability of adjustment
- Throttling of air supply and exhaust, no non-return function.
- ideally suited for aggressive atmospheres or environments submitted to severe chemical or mechanical constraints
- for all pneumatic applications or to convey fluids compatible with FKM and PTFE seals

Product properties

Flow rate in l/min	55
Material	Stainless steel 316l
max. temperature in °C	120
min. temperature in °C	-15
RoHS compliant	Yes
Material seal	FKM
Material adjusting spindle	Stainless steel 316l
Material body	Stainless steel 316l
Material seat seal	PTFE
Material lever	Stainless steel 316l
Material stem	Stainless steel 316l
