

## PA080/025/03 PA-hose

PA-hose blue, RECTULASTIC, 6,0 x 8,0 mm, length 25 m

## Product description

RECTULASTIC hoses from Nycoil for safer, more efficient air power transmission.

## Product properties

|                       |                                                                                                                                                                                                                     |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Outer diameter in mm  | 8,0                                                                                                                                                                                                                 |
| Outside calibrated    | Yes                                                                                                                                                                                                                 |
| Working pressure      | see chart                                                                                                                                                                                                           |
| Colour                | blue                                                                                                                                                                                                                |
| Weight in kg          | 0,5896                                                                                                                                                                                                              |
| Material              | Nylon 12 (PA)                                                                                                                                                                                                       |
| Mechanical properties | - high vibration prevention_x000D_ - perfect abrasion resistance_x000D_ - high compression characteristics_x000D_ - low flow reduction for all kind of media_x000D_ - precise tolerances_x000D_ - constant solidity |
| Medium suitability    | - compressed air - lubrication grease/oil - gasoline - hydraulic - vacuum - chemicals (on request) - foodstuff (on request)                                                                                         |
| Physical properties   | - light weight (specific weight 9x lower as copper)_x000D_ - wide temperature range_x000D_ - high resistance against moisture_x000D_ - saltwater insensitive_x000D_ - long service time                             |
| Series                | RECTULASTIC                                                                                                                                                                                                         |
| Working temperature   | -40°C up to +90°C                                                                                                                                                                                                   |

## Dimensions

|                           |         |
|---------------------------|---------|
| Connection 1              | without |
| Connection 2              | without |
| Inner diameter            | 6,0 mm  |
| Length in m               | 25      |
| Hose Inner diameter in mm | 6,0     |
| Wall thickness in mm      | 1       |
