

Spring balancer 77001321

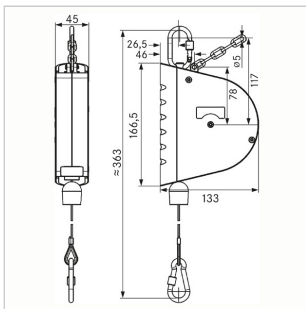

Spring balancer, payload range 0,5 - 2 kg, cable length 2,5 m, easy load setting, automatic locking

Product description

Spring balancer for lightweight and hand-operated tools that have to be kept ready in a predetermined position. High stability and quality. The casing is made of extremely shockproof special plastic, red-orange. The cable drum is made of abrasion-resistant plastic. High-strength steel cable with elastic cable stop buffer and lightweight carabiner for hanging the load. High-strength special mainspring. Easy load setting protected against operating error. Load mounting with secure carabiner. Hanging with screwing carabiner. The automatic locking of the cable windup makes it possible to block the device. Longer cables available on demand.
