

4204 15 21 30 Axial valve

Axial valve, normally closed, EPDM, with detection, female thread Rp 1/2

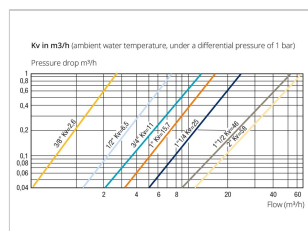

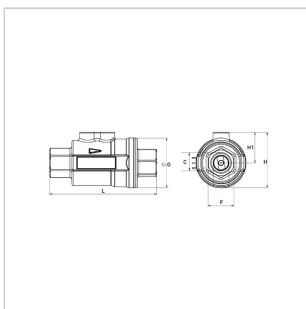

Product description

The Parker Legris axial valve has a pneumatic actuator and can be integrated into automated systems pneumatically or electro-pneumatically (with NAMUR or solenoid valve). It is available with or without detection.

Product benefits:

- Compact size: 5 times more compact compared to a valve with a separate actuator
- Easy installation - ready to use immediately
- Increased safety by automating hazardous tasks
- Available with detection for precise feedback
- Anticipation of failures through diagnostic and predictive maintenance
- Integration with other systems
- Pneumatic or electro-pneumatic actuation
- Full flow with low pressure drop
- Excellent performance at high pressures and temperatures
- Compatible with a wide range of industrial media

Product properties

Number of connections	2
Seal	EPDM
Seal description	Ethylene-propylene-diene rubber
Function	normally closed
Weight in kg	0,85
Maximum working pressure in bar	10
Bore in mm	15
RoHS compliant	Yes
Material body	Brass nickel plated

Dimensions

F	27
H	59
H1	33
L	113
